

Your Soul Card is The Emperor

People who have the Emperor as a soul card are natural born leaders, they have the ability to control things. They are decisive and authoritative. They

know how to get to the top. They like to live according to the rules, but of course, they also like to make the rules. Not afraid to make decisions for others, who may respect them for it and allow it. They often find they must be prepared to defend their territory.

In Divination, the Emperor is usually about the powers that be in the material world and can refer to either an individual or an organisation/government. I've seen this card represent advice to ask the boss for advice to write a business plan. With the Emperor as your soul card, in order to achieve your full potential, you must first learn to control your temper.

Also, learn to respect the opinions of the people whose support you depend upon.

Below is a picture of your soul card. Spend some time looking at it and if you feel moved to do so, try colouring it. Pay attention to how you feel and react to this card.
