

Your Soul Card is The Empress

People who have The Empress as a soul card have the ability to create and influence the things around them. You are a person strongly in touch with the environment around you. Things develop grow and mature under your watchful eye. You make a good parent, coach or mentor and are especially good at bringing out the creative in others. You may also be rather prolific yourself. You understand the need to maintain an ecological balance and that everything depends upon everything else.

In divination The Empress is about productivity and growth. She is viewed as the Universal Mother. I have seen this card represent things from my client's mother to advise to nurture an idea. With The Empress as your soul card, in order to reach your full potential, you need to develop patience. Not everything is going to spring up over night. Give things time to grow.

Below is a picture of your soul card. Spend some time looking at it and if you feel moved to do so, try colouring it. Pay attention to how you feel and react to this card.
