

Your Soul Card is The Magician

People who have The Magician as a soul card can control their own destinies. They are people who can make things happen. These people are particularly good at influencing and even controlling their own environment. They can lead directed and determined lives by focusing on the things that really matter: love and happiness; home and family; money and possessions; even power and fame.

In divination, the Magician card is about energy and making things happen. I've seen this card mean things from advice to work hard to the need to focus on studies.

With the Magician as your soul card, in order to achieve your full potential, learn to focus your energies on the things that matter most to you, rather than directing your energies in too many directions.

Below is a picture of your soul card. Spend some time looking at it and if you feel moved to do so, try colouring it. Pay attention to how you feel and react to this card.
